

Installation Instructions

T2NN97F1

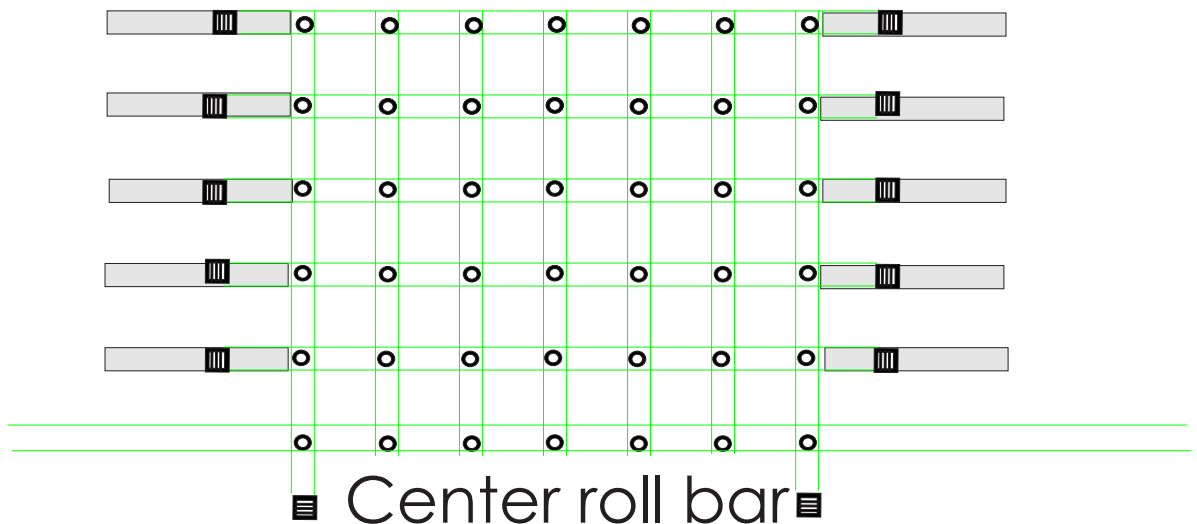

Front Netting for Jeep TJ
1997 to 2006

-Thank you for purchasing a Dirtydog 4x4 netting system. Please read these instructions fully to familiarize yourself with the installation. If you purchased the rear netting as well start with your installation at the back first. You should set aside at least 1/2 hour for the first time you install your

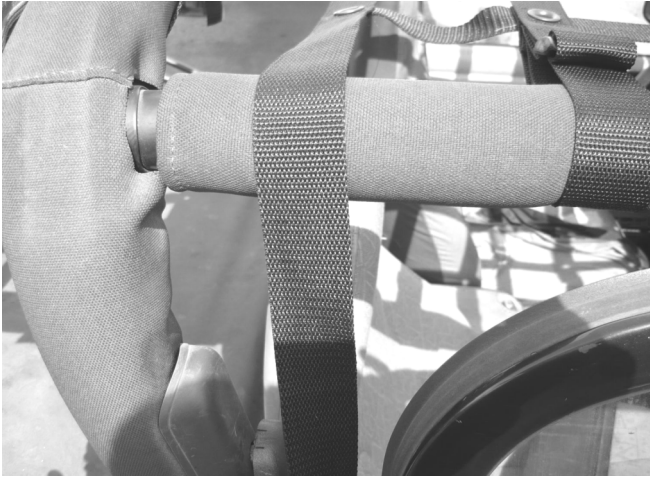

.If you installed the rear section you will be familiar with insatlling the front as it installs the same way. Use the diagram below to orient the piece correctly. The ladderloc buckles face upward. The first strap installs right at the front windshield. Install each side loosely, then tighten and center net after all ten

Windshield

The last strap at the back wraps around the outside of the side roll bar at comes up around the center roll bar and connects to the ladderloc on the adjacent strap. See below

Your net comes with a 3 year warranty against manufacturing defects. Cuts, abrasions, sun faded items are not covered under the warranty.
